

**AI-driven decisions  
for real-time fraud prevention**

**Rabobank**

**INFORM**

- » RiskShield transformed fraud prevention from static rules into a dynamic real-time detection environment. Hybrid AI supports adaptive fraud detection in real time.

Rabobank on RiskShield after 15+ years of collaboration with INFORM

## CHALLENGES AT RABOBANK

- Instant payments require decisions within milliseconds
- Fraud patterns evolve rapidly across multiple channels
- Millions of transactions require immediate decisions
- Static rules and manual reviews reached their limits

## RESULTS WITH RISKSHIELD

- Real-time analysis of millions of transactions every day
- Faster adaptation to new fraud patterns
- Reduced false positives and manual review workload
- Hybrid AI combines explainable rules with machine learning
