
BHG Financial Prevented Millions in Potential Fraud Losses and Made Reviews Over 90% Faster

Challenges

BHG Financial's manual, subjective fraud review process couldn't scale or keep pace with increasingly complex, AI-driven document fraud tactics.

Solution

Embedding Inscribe directly into the fraud workflow gave investigators visibility into hidden document fraud, and the confidence to make faster, defensible decisions.

Results

With Inscribe, fraud reviews are over 90% faster, grounded in clear edit evidence, and backed by insights that have saved BHG millions in potential losses.

“Inscribe was the inflection point for us. It transformed fraud detection from a manual, subjective process into a scalable, transparent system we can trust every time.”

Michael Coomer
Director, Fraud Management
