

Visa Managed Services for Visa Risk Manager

## Keep business moving with Visa's risk experts

Fraud today is growing in scale and form – forcing clients to keep pace.

Visa Managed Services (VMS) for Visa Risk Manager (VRM) optimizes authorization strategies to stop fraud and approve more good transactions

Combines innovative AI solutions and risk expertise to unlock best-in-class performance across the payment journey.

Delivers custom rule set monitoring, proactive network based strategies, and ongoing portfolio analysis to support authorization.

Benefit from in-depth evaluation of your rules structure including token-provisioning rules and gain customized strategy recommendations: case creation volume, false positive ratio, etc.
